

PROMATI RFQ REQUEST

General information

Odoo reference	TEST-E00020942
RFQ ID	4a1613ee-00d4-4508-b44e-fbf7e294f3a0
Request type	Keertrommel BB650 op basis van tekening E00020942
Classification	OEM
Internal customer type	OEM
Template version	RFQ-TPL-001
Balancing	Statisch balanceren

Note: the customer name is deliberately not included in this supplier PDF. Communication must only refer to the Odoo reference.

Position overview

Position	Drawing mark	Type	Quantity	Specifications
POS-001	E00020942	TROMMEL	2.0	bearing: 22213 EK + H313, belt_speed: 1 m/s, description: Keertrommel BB650, diameter_mm: 320, motor_torque: 980 Nm, drum_width_mm: 800, shaft_material: CK45, bearing_housing: SNL 513-611

Missing data / assumptions

Position	Missing data / assumptions
POS-001	lagging specification, balancing class, shell thickness, paint/coating specification

Supplier instruction

Please state price, delivery time and any deviations per position. Deviations from drawing, material, tolerances, lagging, bearings, documentation or FAT requirements must be stated explicitly. No direct customer contact; refer only to the Odoo reference.
